About me

I am a sensible prepubescent boy who finds himself as a game developer. I feels comfortable with my identity and has a strong sense about 2D/3D game concept, logical, and consistent rules and features. I think, I am a hard working, honest, individual. I am a good timekeeper and always willing to learn new skills. I am outgoing, tactful and able to listen effective when solving problems.

Skills

Unity Game Engine

Script: C,C++,Java Script

Programming language: C,C++,PHP,Java

Platform: Android, laravel

Database: MySQL, Oracle

Tools: Android SDK, OpenGL, MS office

[The skill scale is from 0 to 6]

Career Objective

Experienced game developer seeking a new and satisfying working environment where past skills can be used to create future game. I have worked at multiple levels of the quality assurance phase video game design and have experience in final product and publishing. Enthusiastic about innovation in video games across all platform with focus on mobile game.
